Dear Valued Customer,

US Electrofused Minerals and Electro Abrasives have been closely monitoring the rapidly-changing situation around COVID-19 (coronavirus), responding to new information as it arises and preparing for all possible scenarios.

We are following the guidance provided by the CDC, WHO and local health departments. We will do everything we can to continue our operation to avoid any disruption in supply chain. Our products are mainly imported from Brazil and South Africa, and we don't foresee any logistic problem from these routes.

We are focused on making sure our employees can put their health first and foremost as we face this situation together. We are implementing an internal policy which will help ensure that our employees are able to stay home if they are sick or diagnosed with COVID-19.

We know there is a lot of information out there; for the most current information on COVID-19, please visit the following websites: www.cdc.gov,

www.internationalsos.com, www.who.int.

We are working tirelessly to do what's best for everyone who works with us.

Best regards,

*Leonardo Curimbaba Ferreira
General Manager*
